# SETTING THE RHYTHM FOR MODERN CERAMIC TRENDS WITH EVERY SINGLE PIECE

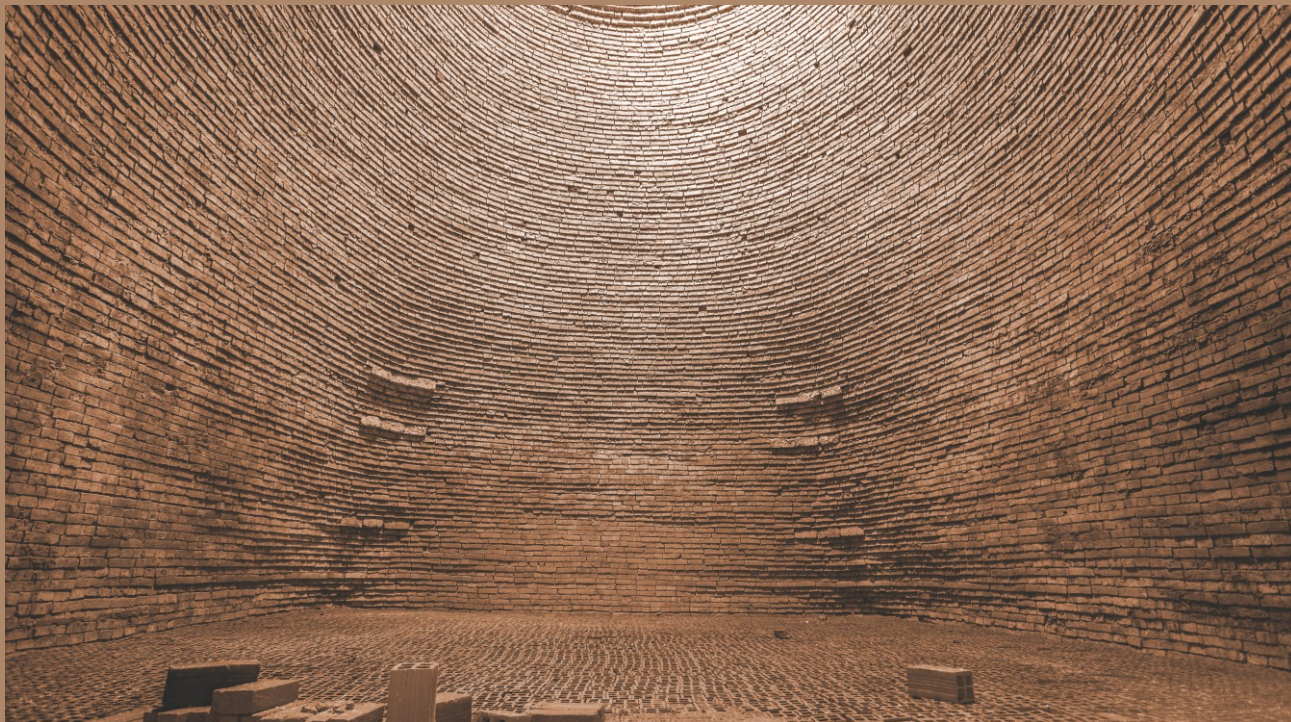

**The Tile Composer - these words capture the essence of Mozart Vitrified Pvt. Ltd. - India's most preferred premium fullbody vitrified tiles manufacturer and exporter.**

Mozart is one of the largest and most preferred premium fullbody tile manufacturers and exporters in the ceramic industry.

Established in 1975, we have upheld a legacy of vision, innovation, and dedication for three generations. We are equipped with cutting-edge technology that follows the highest standards of quality. With the growing demand of our consumers, we have grown to offer 250+ unique designs in more than 35 countries. Our collections, like Rare & Unique and Rare & Unique Plus, offer one-of-a-kind designs that set the tone and standards for the design and function of fullbody vitrified tiles.

Our belief in creating trends has led us to strive for constant growth by upgrading our product range, adopting new technology, and adhering to strict quality standards.

# TEXTURED LAYERS IN RHYTHM

Inspired by the raw and unfiltered beauty of terracotta, the Cottage Collection is linear, grounded, and texturally rich. The warm, earthy, muted palette, along with its precise lines, brings a sense of permanence to any space.

Each piece reflects perfection and quiet strength, creating a visual cadence that is both soothing and powerful. The terracotta-inspired tile designs serve as a reminder that beauty lies in the simplest and most authentic forms.

## WHERE TACTILE BEAUTY MEETS SUBTLETY

Available in both punch & matt finishes, the surface of these tiles offers a distinctive tactile touch and feel. The finishes enhance the natural depth of any space with their fine textures and tonal variations, softly diffusing light while imparting subtle depth and character to your interiors.

The edges of these masterpieces are precise and disciplined, allowing the space to feel both handcrafted and intentional. Experience the comfort of raw materials that create a tranquil environment.

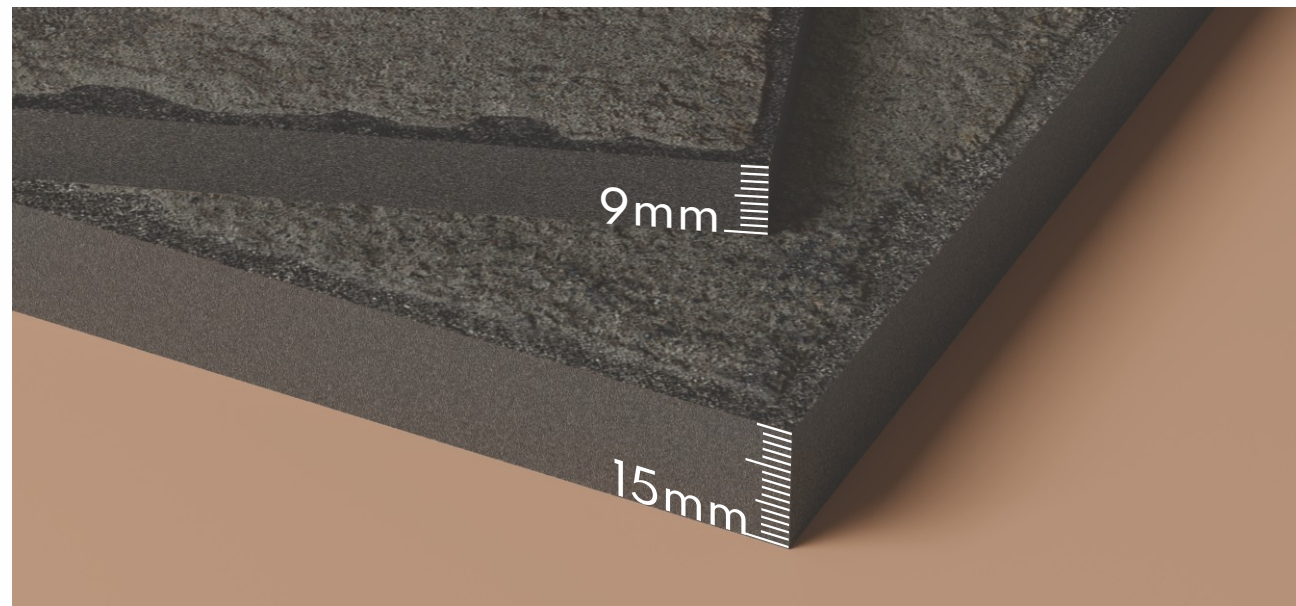

# CELEBRATING RAW BEAUTY AND MATERIAL TEXTURE THROUGH COTTAGE

**Cottage**  
Collection

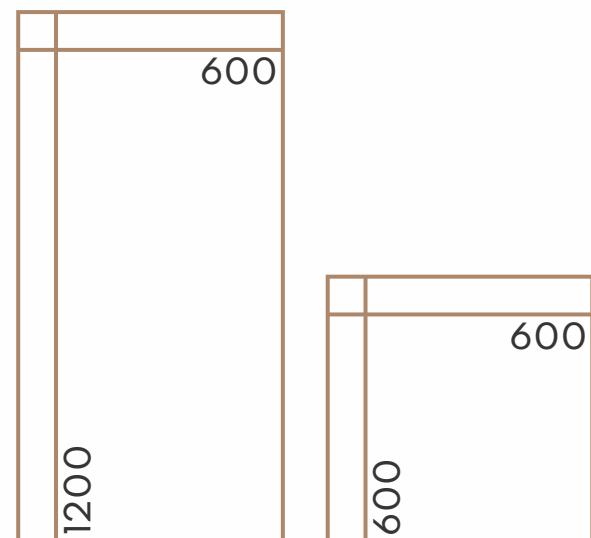

The Cottage Collection celebrates the unpretentious beauty of terracotta, highlighting their natural essence and serving as a design statement. Bring a composed, architectural rhythm to your interiors with these tiles, which create a seamless, monolithic effect. Give your interiors a calm, timeless quality with this collection, which is an ode to the beauty of natural materials and the quiet strength of handcrafted design.

Beyond its visual charm, the collection is highly practical, bringing a balance of material integrity and functional performance, making it ideal for both residential and commercial applications. Perfect for spaces that seek a grounded yet sophisticated atmosphere.

# THICKNESS THAT DEFINES QUALITY

# DIMENSIONS THAT ARE VERSATILE

✦ 9mm      ✦ 9mm ✦ 15mm

The collection is available in two classic sizes—600×600mm and 600×1200mm, offering versatility for a variety of applications. Both dimensions create a balanced, modular look, providing a sense of continuity and spaciousness. Choose between 9mm and 15mm thickness options for a robust and durable structure.

# INSTALLATION GUIDE FOR 15mm

At a confident 15mm thick profile, the collection promises strength and durability, bringing a sense of solidity and presence to any space. The substantial depth enhances texture and tactility, ensuring greater resilience. These tiles are also easy to install, see below for a detailed installation guide.

## DRY INSTALLATION ON SAND

Installation on sand is ideal for beaches and lidos, especially when using light-colored tiles.

## DRY INSTALLATION ON GRASS

Installing on grass creates original, customizable walkways in parks and gardens, which can be rearranged over time.

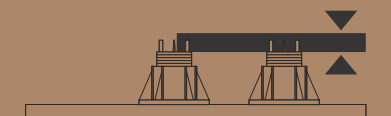

## DRY INSTALLATION ON GRAVEL

When installed on gravel, the tiles promote seamless rainwater drainage, combining functionality with effortless design.

## INSTALLATION ON SCREED WITH ADHESIVE

Install tiles on a screed bed with adhesive for heavy-traffic areas such as parking, courtyards, pool edges, outdoor flooring, and sit-outs.

## ELEVATED FLOOR INSTALLATION ON AN ADJUSTABLE SUPPORT

Easily removable, inspectable, and reusable, these tiles work with various support systems. Perfect for concealing wiring and pipes while keeping them fully accessible.
